

2023 MFPRM

Rome, 6-8 July 2023

Mediterranean Forum of Physical and Rehabilitation Medicine

Subject: Letter to the President of the “Greek National Society of PRM”

Dear President, dear Colleague,

I am contacting you on behalf of the Scientific and Organizing Committee of the 2023 Mediterranean Forum of Physical and Rehabilitation Medicine to respectfully ask for your endorsement to promote the Congress among members and affiliates of your Society.

The 2021 virtual MFPRM has made us realize we need a place to link our backgrounds and to share our knowledge now of all times. It is on our agenda to foster science, research and education and to take an opportunity of going over the main rehabilitation fields that COVID-19 undermined.

The 2023 MFPRM primarily focuses on what COVID-19 taught and left us as clinicians and researchers, how it changed our way of dealing with patients, families, caregivers, and healthcare systems, and also the manner in which long-COVID is currently impacting on our rehabilitative activities. Sessions of the various topics of PRM will be ensured as well.

The meeting schedule features pre-ordained lectures, papers and communications, and all of the abstracts selected by the Scientific Committee will be included in a supplementary issue of an international Journal. Several showcase and hands-on workshops will also enrich the congress program.

In thanks to your support, each group registration including at least 10 members from your Society will receive a 10% reduction as for the congress subscription.

We are delighted to gather physiatrists and rehabilitative healthcare professionals from all of the Mediterranean countries and more to go beyond COVID-19, and to welcome you and your distinguished colleagues to the 2023 MFPRM in the eternal city of Rome!

Looking forward to hearing from you soon

Best regards,
Prof. Calogero Foti
President of the 2023 MFPRM
